FlexoLines is a tough self adhesive aisle marking tape to mark your aisles, walkways, warehouse lines, shipping areas and safety hazards throughout your facility. The advantage of FlexoLines is that it is easy to install and maintain. Further more it is also removable without leaving residue for new configurations and lay-outs and is tough and durable. The cost for aisle marking will be reduced with FlexoLines which can be used on eg. concrete, stone, tile, vinyl and metal floors. Please study our product information and installation guide.
