

# Drain - the workplace mat with holes

drainage / anti-slip / holes / anti-fatigue

Oil and grease proof  
nitrile rubber

Drainage and anti-slip

Any size - Any shape

Moulded bevelled edges

# Drain - the workplace mat with holes

The economic solution for areas with oil, grease, water

ANY SIZE AND SHAPE POSSIBLE - EXAMPLES STANDARD SIZES:  
91x152cm, 91x212 cm, 91x302 cm, 91x452 cm, 91x602 (+30 cm)

Drain is a heavy-duty workplace mat for polluted and wet areas with slippery floors like in metalworking and food industry.

An extremely strong, solid and oil resistant nitrile rubber mat. Made of 100% nitrile rubber compound.

With raised anti-slip profiled holes. Optimum for drainage of oils and fluids. Holes can collect more metal swarfs and debris.

With 3 cm wide molded beveled edges for easy access for carts.

Drain is anti-slip and has a positive anti-fatigue effect on employees with standing workpositions. For all employees with standing workpositions in metalworking and food industries with slippery, oily, wet and polluted floors. Resistant to most industrial oils, animal fats, water and grease.

### Features:

- Holes for optimum drainage.
- Oil and grease resistant. 100% nitrile rubber compound.
- Molded 3 cm beveled edges on all sides.
- Good standing comfort.
- Anti-slip, durable and strong.

### Product specifications:

- Thickness: 12 mm
- Weight: 7,5 kg/m<sup>2</sup>
- Colour: Red (nitrile rubber), Black (sbr rubber)
- Surface: Anti-slip raised ring
- Drainage: ø25 mm holes

**Types:** Red nitrile rubber resistant to oils, water, grease, high temperature in eg. metal- and food industry. Optional in black sbr rubber for general industrial purposes.

**Shapes:** Any size and any shape possible. Just measure up!

**Guarantee:** 3 years  
Please request a sample and test resistance on location if application is heavily contaminated.
